From: Market Administrator
New York-New Jersey Milk Marketing Area
708 Third Avenue, New York, NY 10017
212 309-1600

DAIRY FARMERS WILL RECEIVE \$14.43 FOR AUGUST MILK

NEW YORK, September 13---Dairy farmers who supplied milk plants regulated under the New York-New Jersey marketing orders during August 1990 will be paid on the basis of a uniform price of \$14.43 per hundredweight (31.0 cents per quart); the price for the corresponding month last year was \$13.29 per hundredweight. Acting Market Administrator Richard M. McKee also stated that the price was \$14.02 in July 1990. The uniform price is a marketwide weighted average of the value of farm milk used for fluid and manufactured dairy products.

The seasonal incentive fund returned a total of \$3,184,320.72, or \$.347 per hundredweight, to the dairy farmers' uniform price for August. This fund was generated by reducing the uniform price paid to producers during the high-production spring months.

A total of 13,234 dairy farmers supplied the New York-New Jersey Milk Marketing Area with 917,423,692 pounds of milk during August 1990. This was an increase of 3.6 percent (about 32 million pounds) from last year. The gross value to dairy farmers for milk deliveries was \$132,961,589.31. This included differentials required to be paid to dairy farmers but not voluntary premiums or deductions authorized by the farmer.

Regulated milk dealers (handlers) used 365,016,588 pounds of milk for Class I, 39.8 percent of the total. This milk is used for fluid milk products such as homogenized, flavored, low test, and skim milks. For August 1990, handlers paid \$15.83 per hundredweight (34.0 cents per quart) for Class I milk compared with \$13.88 a year ago.

The balance (552,407,104 pounds or 60.2 percent) was used to manufacture Class II products including butter, cheese, ice cream, and yogurt. Handlers paid \$13.19 per hundredweight for this milk.

The uniform price is based on milk containing 3.5 percent butterfat. For August 1990, there was a price differential of 11.4 cents for each one-tenth of one percent that the milk tested above or below the 3.5 percent standard.

All prices quoted are for bulk tank milk received from farms in the 201-210 mile zone from New York City.
